- Active Listener

PROFILE

As a Full-Stack Developer, I am passionate about problem-solving and innovation. I love learning new technologies and I'm always open to taking on new challenges. My goal is to use my technical expertise to deliver products and services that truly meet customer needs.

I enjoy collaborating with teams and listening to experts. I approach every project with purpose, aiming to create solutions that have a positive impact on people's lives.

WORK EXPERIENCE

- Accenture** Oct 2021 - Present
Full Stack Developer
 - Developed custom web applications for clients in the banking and healthcare industries, delivering solutions that meet their unique requirements.
 - API development
 - Built scalable, high-performance applications using modern technologies such as React, Next.js, Node.js, and NestJS.
 - Worked with cloud platforms like AWS and Azure to ensure scalability, performance, and reliability.
 - Managed databases, including designing, modifying, and optimizing SQL (PostgreSQL, Prisma) and NoSQL (MongoDB) databases.
- Media58 - Internship** Aug 2020 - Jan 2021
Jr. Full Stack Developer Aug 2019 - Nov 2019
 - Managed websites including updates and bug fixes.
 - Focused on frontend development, adding new features and improving user interfaces.

SKILLS

| | | |

- Dutch (Fluent)
- English (Fluent)
- Arabic (Native)

HOBBIES

- Photography
- Gym
- Travel

PROJECTS

- **Inventory Steering Cockpit – Bayer**

WebApp – 4 mos

A tool to track the amount of medicines on Bayer's warehouses around the world.

ReactJS - Tailwind - Python - AWS - PostgreSQL - GraphQL - Github

- **Carbon insight tool – Rabobank**

WebApp – 6 mos

Provides clear insights into the carbon emissions of software features. It calculates emissions based on resource usage across three layers: user terminal, network, and infrastructure.

Typescript - Azure Functions - Cosmos DB NoSQL - Azure - Gitlab

- **Optimus – Bayer**

WebApp – 18 mos

Application featured a wide range of functionalities, including trending analysis, template management, and the creation and editing of reports.

Typescript - Material UI - React - NextJs - Gitlab - AWS - NodeJS - NestJS - GraphQL - Prisma - PostgreSQL - Docker - LaTeX

- **Stedin**

WebApp – 6 mos

My role primarily involved executing tests on various environments, including SAP, and addressing identified errors.
